

# SHREYASH NARVEKAR

## AI & ML ENGINEER | PYTHON DEVELOPER

Mumbai, Maharashtra, India

Email: [itsshreyashnarvekar@gmail.com](mailto:itsshreyashnarvekar@gmail.com) | Phone: +91 7738209093

LinkedIn : <https://linkedin.com/in/shreyashnarvekar> | GitHub : <https://github.com/shreyashnarvekar>

### SUMMARY

AI Engineer with expertise in developing web applications & advanced machine learning models, deploying AI application and optimizing system design. Holds a Bachelor's in Artificial Intelligence & Machine Learning Engineering and a Diploma in Computer Engineering. Specialized in Python, Data Science, Django, Data analysis and libraries like TensorFlow, NLTK, Word Embedding.

### KEY TECHNICAL SKILLS

- **Programming Language:** Python
- **Frameworks:** Django, Bootstrap
- **Machine Learning:** Scikit-Learn, TensorFlow
- **Natural Language Processing (NLP):** Tokenization, Word Embedding, NLTK
- **Data Handling & Analysis:** SQL, Pandas, NumPy, Matplotlib, Seaborn, MS excel, Power BI
- **Version Control & Tools:** Git, GitHub, VS Code
- **Soft Skills:** Leadership, Teamwork, Adaptability, Continuous Learning

### EDUCATION

- **B.E in Artificial Intelligence and Machine Learning** *Sept 2021 - July 2024*  
Universal College of Engineering - 7.16 CGPI
- **Diploma in Computer Engineering** *Aug 2017 - Aug 2021*  
Thakur Polytechnic - Marks - 82.47%

### PROJECTS

- **Sound - Automated Business Analytics & Accounts Management | Python - Django**
  - Developed a full-stack Django application to streamline core business operations, including booking, financial management and client and staff data handling.
  - Engineered a dynamic dashboard with automated reporting for bookings and accounts, providing actionable financial insights and saving significant administrative time.
  - Implemented automated financial calculations for profitability, expenses and pending payments, ensuring data integrity for accurate analytics.
  - Designed an intuitive UI with dynamic forms and relational dropdowns, enhancing user experience and ensuring data consistency across the platform.
  - Built an automated email notification to send event-specific details exclusively to assigned staff, improving operational efficiency and communication.

- **Employee Retention Prediction | *Machine Learning and Django***

- Built and deployed a machine learning based employee retention prediction system
- Performed Exploratory Data Analysis (EDA), feature engineering and model evaluation
- Achieved 91% accuracy by using XG Boost model
- Developed a user-friendly web interface for real-time predictions.

## EXPERIENCE

### Larsen and Toubro - *Industrial Training Intern*

**May 2019 - June 2019**

- Interacted professionally and positively with a diverse group of co-workers and staff.
- Implemented strategic plans and programs in coordination with senior stakeholders.
- Participated in a project regarding technical approaches
- Visited the server room and engaged with engineers to gain a better understanding of its functionality

## CERTIFICATIONS

- **AI and Data Science**

**July 2024 - Jan 2025**

Boston Institute of Analytics

*Topics: Python, Data Visualization, Machine Learning, Deep Learning, NLP, Generative AI*

- **Full Stack .NET Developer**

**Jan 2021 - April 2021**

SMEC

*Topics: Visual Studio, C#, Dot Net, Microsoft SQL Server, Angular JS, Bootstrap*

## LEADERSHIP AND ACTIVITIES

- **Councillor of NSS, UCOE**

- Led NSS camp and managed a team of volunteers
- Organized and managed over 50 college events and more than 15 webinars.

- **Technical Head of Social Welfare Committee (SWC)**

- Created and presented PPTs, managed technical documentation and handled sound systems for SWC events.
- Ensured smooth audio setups, prepared event documentation and designed impactful PowerPoint presentation for SWC activities.

- **Ethical Hacking & Cybersecurity**

- Participated in cybersecurity workshops to enhance security skills.

## ADDITIONAL INFORMATION

**Interests:** Leadership, AI Applications, Web Development, Gymnasium, Swimming

**Languages:** English, Hindi, Marathi, Konkani
